

Portable Cattle Feeder

Strongest, Most Versatile Feeder Around

Both Sides Dump For Easy Empty

Spring-Loaded Telescoping Hitch

This revolutionary feeder hydraulically dumps the trailer floor on each side for trouble-free cleanout, making it faster and easier than any other feeder on the market. Powered by your tractor or hydraulic

truck bed, the EZMT also enables you to adjust the width of the trailer to accommodate both cows and calves, while allowing you to use the same feeder with a range of different-sized animals.

Features
15" Tires NEW!
